

Welcome

We would like to welcome you to our dental practice with Dr. Joseph DeRario & Associates. We make a special effort to provide you with treatment in a caring, gentle manner. By taking this approach, we hope to help you feel relaxed and make your visits a pleasant experience. We know that if you feel good about your dental visits, chances are you will maintain a regular schedule. This is important for your dental health.

In order to provide you with the best possible dental care, we keep abreast of the latest developments in dentistry. We utilize modern equipment, materials and techniques.

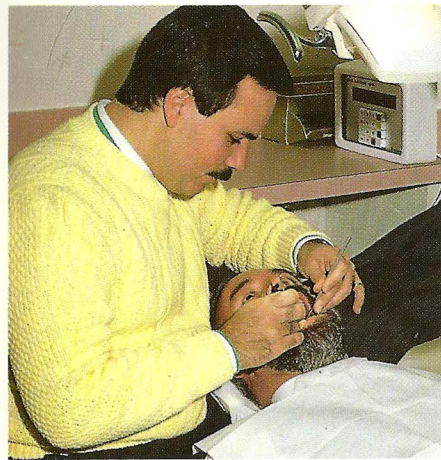

We look forward to your visit and to welcoming you to become a part of our dental family.

General Dentistry

Our General Dentistry Department provides the complete range of services for our adult patients. If treatment by a specialist is required, they are available to you through our office in conjunction with our other associates.

Keeping up with the breakthroughs of modern dentistry, we offer a wide range of patient services. From routine dental check-ups, to dental implants, bondings, crowns and sophisticated TMJ treatments, our dedicated staff provide you with

the latest procedures and techniques generated by on-going dental research. Whatever your dental requirements, our group of associates working together can provide for your dental needs.

Preventive Care

If conscientious oral hygiene and regular dental visits are not ingrained in your health regimen, you're forgetting key ingredients of physical well being. Don't think that as long as nothing hurts in your mouth, your dental health must be intact!

We stress a preventive program of professional cleaning and check-ups and good daily home care. This will result in fewer dental treatments, less expense and most important, preservation of your natural teeth.

In short, view dental care for what it is—a key component of physical well-being—and you'll be a healthier person for it.
