

CUSTOM DESIGN • Nebulon Studios provides the skilled expertise of a stained glass artisan who will work in concert with you on your project. Serious consideration is given when developing a composition so that it is appropriate and responsive both to the environment and those who view it.

For 15 years, Nebulon Studios has custom designed stained glass ranging from small works to use as accent pieces to large murals. Each stained glass work is meticulously handcrafted by a single artist. Careful attention to detail by the craftsman is what makes each piece so attractive and valuable. Stained glass reminiscent of the Tiffany style as well as applications with a contemporary approach are part of Nebulon Studios portfolio of projects. In addition to private home commissions, Nebulon Studios has custom designed work for restaurants, offices and even boats.

Professional carpentry and lighting are other services Nebulon Studios offers when required in the execution of a project. For example, stained

glass can be encased in wooden cabinetry and backlit to provide dramatic visual enjoyment at anytime of day or night in any location.

CONSULTATION • Whatever the size or concept of your stained glass project, Nebulon Studios offers free initial consultation to discuss ideas and provide cost estimates.

APPPLICATIONS • In doors, doorways and entry enclosures stained glass creates an interesting welcome to visitors arriving at private residences or places of business. Companies can utilize this area to incorporate their logo or design to reflect their business establishment and create a strong visual impression.

Stained glass room dividers provide for the necessity of privacy yet stand on its own as a piece of art. Window shutters designed of stained glass offer beautiful privacy when desired and can be opened for unobstructed views. Nebulon Studios also creates larger stained glass windows that can be opened when desired.
